

Slide 1 - Slide 1

Slide notes

When we have made a new Report, then it can be used as a Swap for execution in place of another Document, or it can be used in the Report Warehouse Library, in both cases without needing a Menu Process. But if we want to make this Report available to Users on their Menus, then we need to put the Report in the Menu Process Library. How do we do that? We will see now - we choose the Publication function.

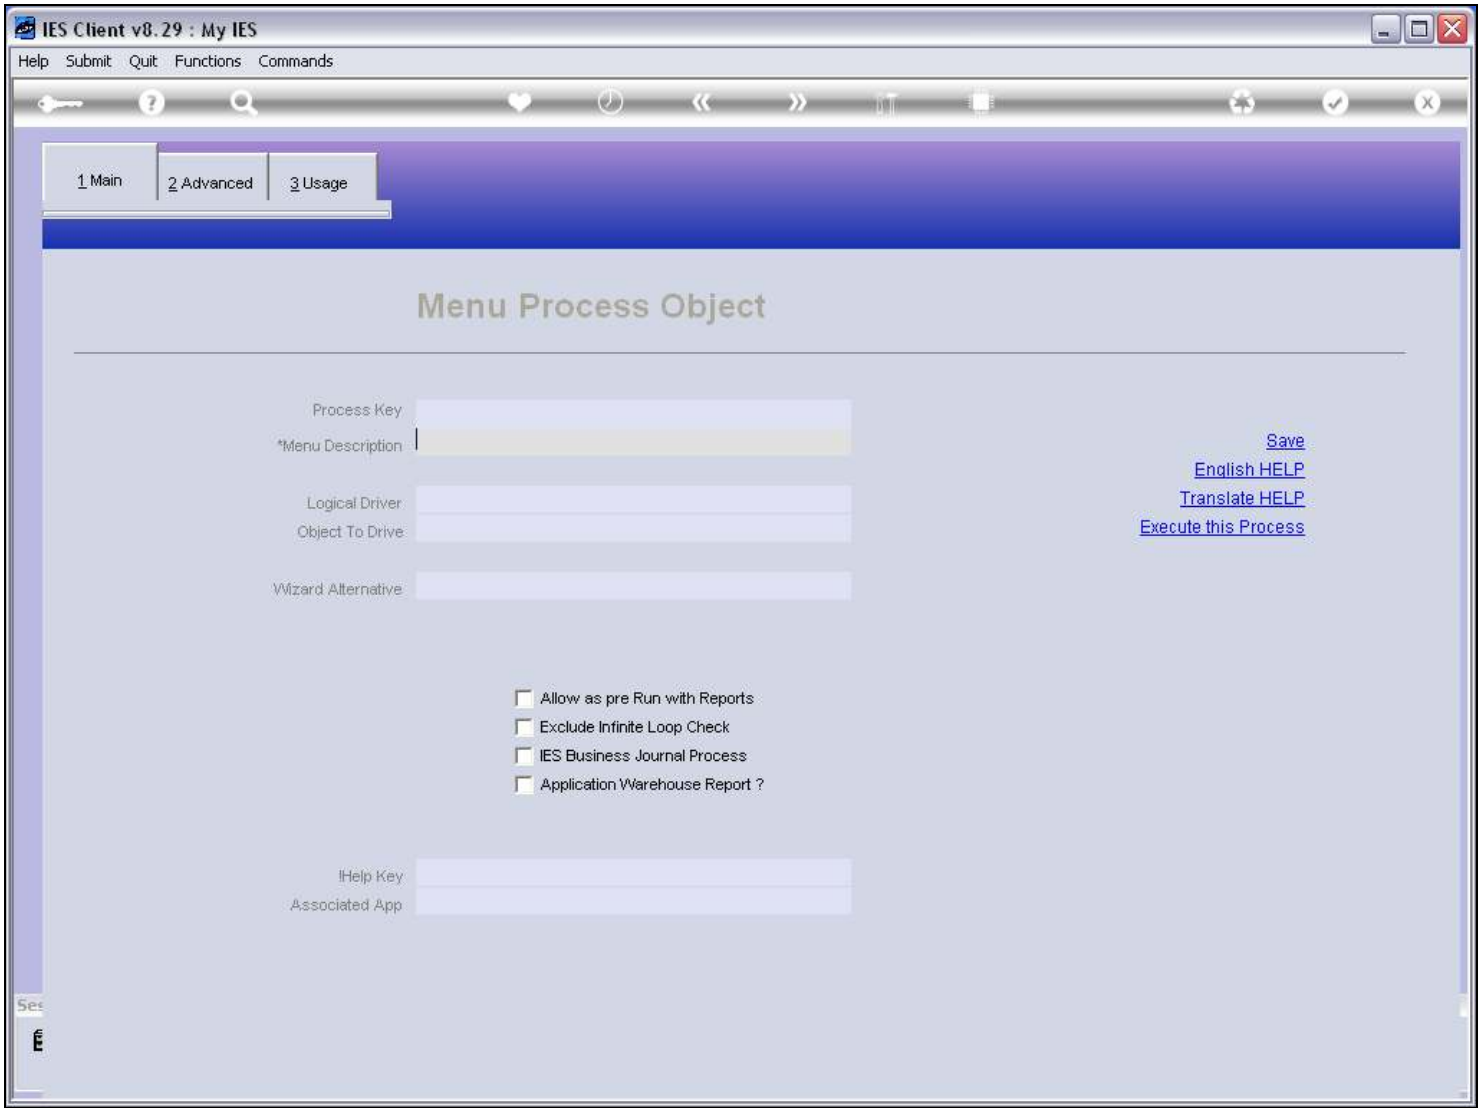

Slide 2 - Slide 2**Slide notes**

If this Report is already in the Process Library, then the system will say so. This Report is not yet in the Process Library, and the system will put it there automatically if we choose 'Make a New Menu Process'.

Slide 3 - Slide 3**Slide notes**

So, it has been done, and the system will now open the link to the Process Library.

Slide 4 - Slide 4

Slide 5 - Slide 5

The screenshot shows the 'IES Client v8.29: My IES' application window. The title bar includes standard Windows window controls. Below the title bar is a menu bar with 'Help', 'Submit', 'Quit', 'Functions', and 'Commands'. A toolbar with various icons is located below the menu bar. The main content area has a blue header with three tabs: '1 Main', '2 Advanced', and '3 Usage'. The '1 Main' tab is selected. The main content area is titled 'Menu Process Object'. It contains several input fields and checkboxes. The 'Process Key' field is set to '1556456533'. The '*Menu Description' field is set to 'My Demo Report'. The 'Logical Driver' field is set to 'document writer'. The 'Object To Drive' field is set to 'MYDEMO :My Demo Report'. The 'Wizard Alternative' field is empty. There are four checkboxes: 'Allow as pre Run with Reports', 'Exclude Infinite Loop Check', 'IES Business Journal Process', and 'Application Warehouse Report ?'. The 'Help Key' field is set to 'MYDEMO'. The 'Associated App' field is set to 'System Business Objects'. On the right side of the form, there are four links: 'Save', 'English HELP', 'Translate HELP', and 'Execute this Process'.
