

Slide 1

Slide notes: We will now have a look at Period driven Comments in our Reports. What is a Period Comment? A Period driven Comment means that when we perform the Report with Current Month = July, then the July Comment will appear in the Report. The Comment Index is just the master list of Comment Types, and for each entry in the Comment Index, we may record specific Comments by Period.

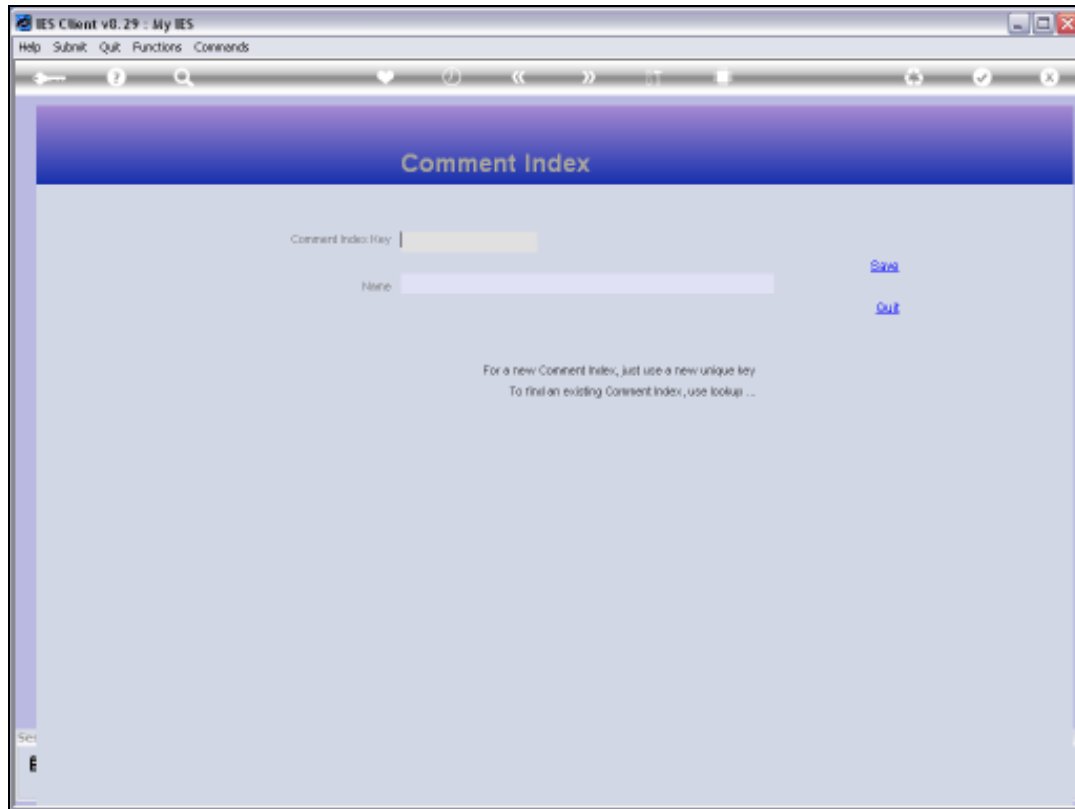

Slide 2

Slide notes: Period driven Comments are accessible from the Business Objects menu, and also from the DocWriter console.

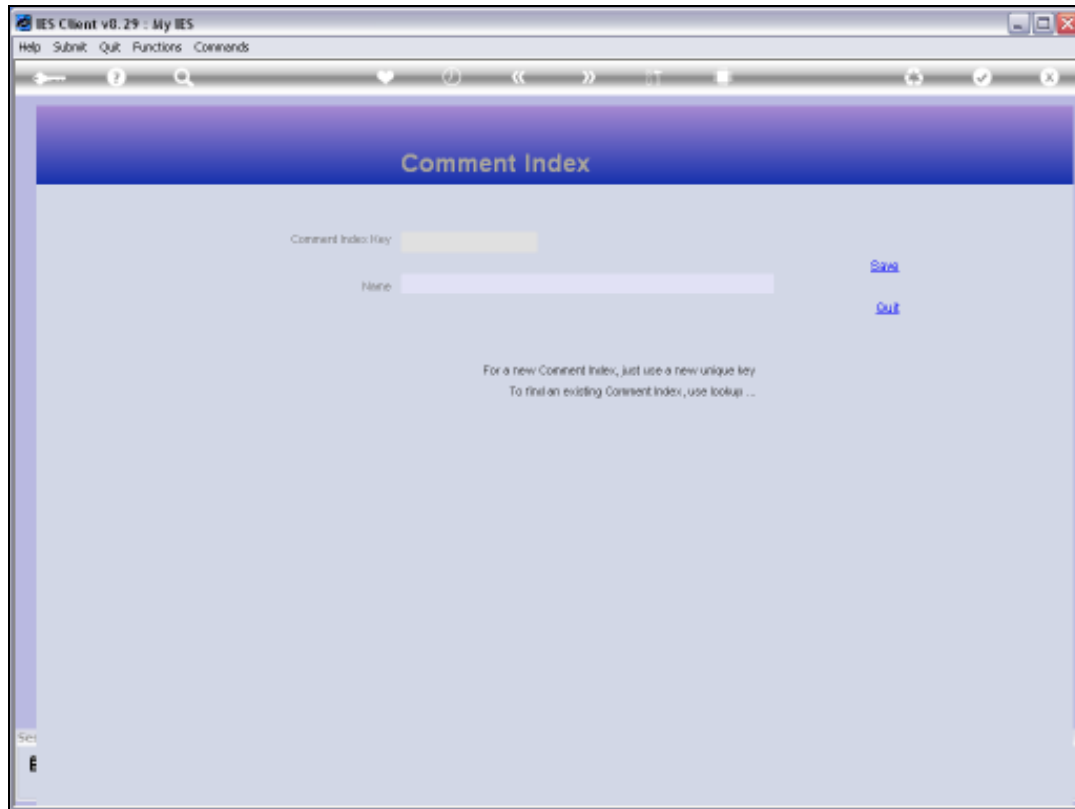

Slide 3

Slide notes: We will start by making a Comment Index entry.

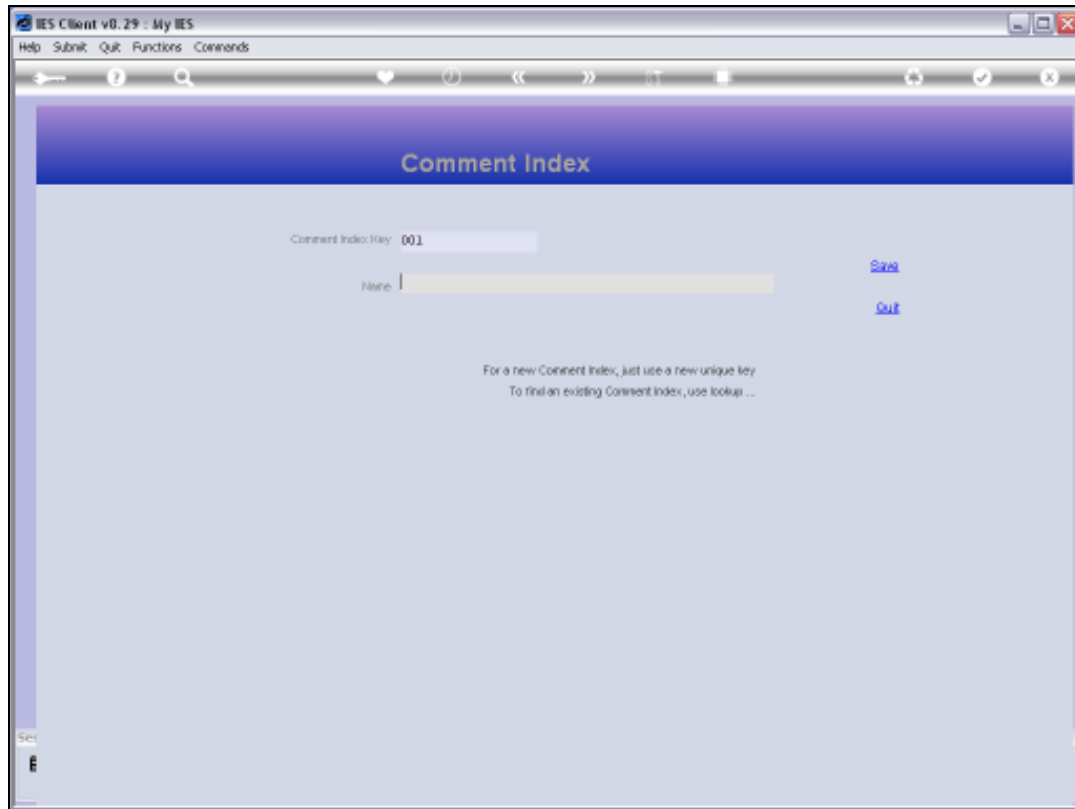

Slide 4

Slide notes:

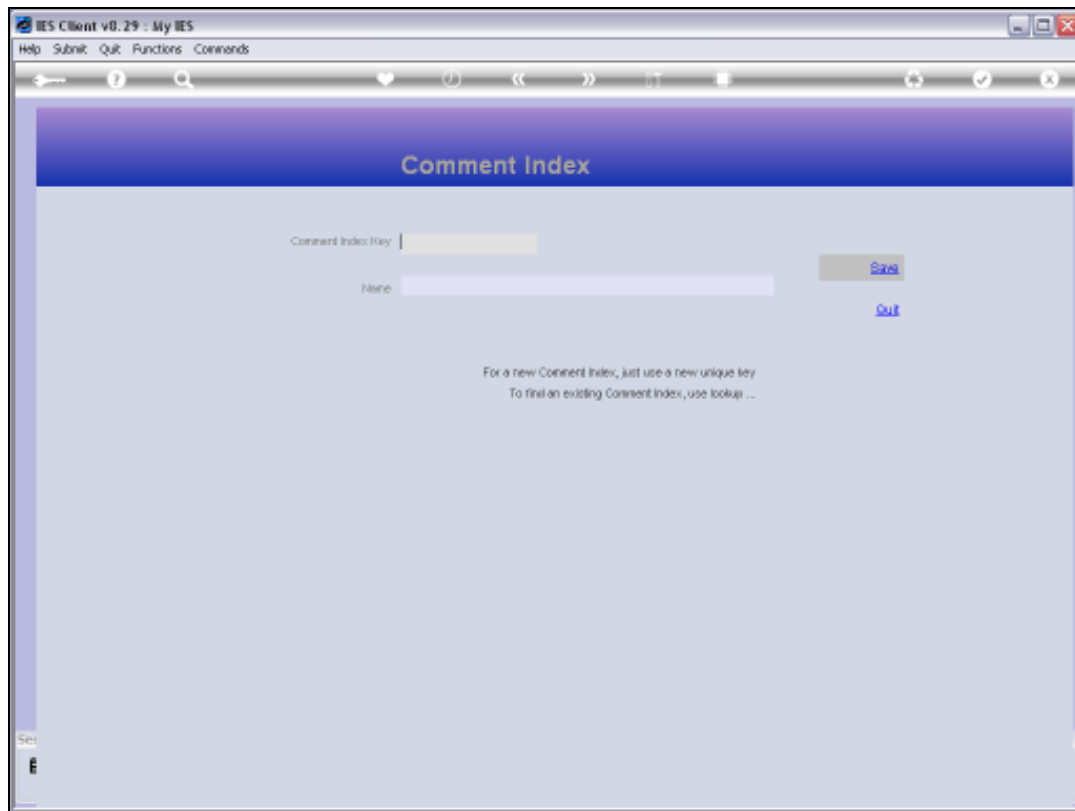

Slide 5

Slide notes: A 3-digit Key is recommended, and then we briefly describe what the Comment is used for, so that we can identify it.

Slide 8

Slide notes: Once we have an entry in the Comment Index, then we can record Comments for any Periods against that Index entry.
