It is a standard facility on all IES Business Accounts (main and sub ledgers) to allow an account to be indicated as 'open for trade' or 'closed for trade'.

Because of the unlimited 'online' times allowed with history, accounts that still have a balance or online history may not be customarily deleted, hence the option to CLOSE such accounts, which then precludes them from being used for new Transactions while CLOSED.

Hint: Closed Accounts may be returned to OPEN status if required.

Function

Defines Master records for Merchandise Outlets.

Caution

Master Key is by own choice but a new unique key can be generated with the "new key" function.

Description

The Merchandise Outlet is a single geographical point for merchandising. For example, in the case of a chain with many branches called "To To" then each Store or Branch of To To where we merchandise will have a separate Merchandise Master record, even though the CRM Account may be the same for all.
