

Slide 1

Slide notes: The Health Check wizard includes an option for a System Set Up check. This option can be used during implementation of a new Business Datamart, or on demand at any point in time afterwards.

Slide 2
Slide notes:

Slide 3

Slide notes: The purpose of this check is to point out any serious set up shortcomings.

-----
0002 no problematic items identified!
0004
-----

4 record(s) listed
```

Slide 5

Slide notes: The desired result is that no problem should be reported, as indeed is the case here. If there are any problems, then the system will explain with sufficient detail for the Administrator to identify and correct the problem.
