Slide notes: Here is our Report for Current Planned Maintenance Events, and the Report can be published to the Report Warehouse. A Warehouse Administrator can publish a Report to the Public part of the Warehouse, for anybody to see and browse, but the average User cannot. However, any User can publish to his or her Private Warehouse, and that is what I am going to do.

Slide notes: Before closing this Report, I choose PUBLISH.

Slide notes: In actual fact, I happen to be an Administrator, so I can choose between publishing to the PUBLIC or PRIVATE sections. The non-administrator User will not be asked this question, and will automatically go to the PRIVATE section.
