

Slide notes: With GL Writer, we can write Reports 1 by 1, and we can do it rather fast. But, there is even a method to automatically write dozens or hundreds of these Reports in 1 go. Before we show that function, we will use the 'Delete' option just to show that we have none of these GL Reports at the moment.

Slide notes: We can run a Report Listing of the GL Reports, or we can just use the Delete option now to see how many GL Reports will appear on the selection list.

Slide 34 Slide notes:

Slide notes: And as we can see, there are 48 GL Reports on the list, as expected. So the 'Auto Write' is a powerful function to very quickly generate the various Departmental GL Management Reports that we need.

Slide 36 Slide notes:
