Slide notes: The Delete Record icon is the standard delete function for data records.

Slide notes: If there are still some Users with this Datamart registered as an entry point, then we cannot delete the Datamart entry until we remove this entry point from those User Master Records.

Slide notes: Now there should be no reason anymore why we cannot delete this Datamart entry.

Slide notes: And indeed we have confirmation that this Datamart entry can now be deleted.

Slide notes: The removal of this Datamart option from IES has now been accomplished.

Slide 16 Slide notes:
